DETAILED ACTION

1. Claims 4, 14 and 24-29 are pending.

Information Disclosure Statement

2. The information disclosure statement filed May 25, 2007 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent, publication, or other information listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 27-29 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent 5,666,538 to DeNicola.
5. As to claim 27, DeNicola discloses a method comprising: generating log information based on an accessed state of files on a first storage device [col. 3, lines 52-59]; detecting a frequency with which files on the first storage device have been accessed from the generated log information [col. 3, lines 52-59]; moving files based on the detected frequency to a second

Art Unit: 2116

storage device such that frequently accessed files are gathered together on the second storage device [col. 3, lines 59-63 and col. 13, lines 10-14]; and performing power-saving control on the first storage device as a result of said moving of files, to thereby reduce power consumption by the first storage device [col. 13, lines 15-19].

6. As to claim 28, DeNicola discloses the moving files based on the detected frequency to a second storage device such that frequently accessed files are gathered together on the second storage device [col. 13, lines 10-14]. It is well known in the art that files are only moved to a second storage device if the files are capable of being moved to said second storage device, substantially as claimed.

7. As to claim 29, DeNicola discloses a method comprising: generating access information based on an accessed state of files on a first storage device [col. 3, lines 52-59]; detecting a frequency with which files on the first storage device have been accessed from the generated access information [col. 3, lines 52-59]; moving files based on the detected frequency to a second storage device such that frequently accessed files are gathered together on the second storage device [col. 3, lines 59-63 and col. 13, lines 10-14]; and performing power-saving control on the first storage device as a result of said moving of files, to thereby reduce power consumption by the first storage device [col. 13, lines 15-19].

Allowable Subject Matter

8. Claims 4, 14 and 24-26 are allowed.

Response to Arguments

9. Applicant's arguments filed August 14, 2007 have been fully considered but they are not persuasive.

10. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., using log files to gather together files accessed a predetermined number of times onto the second common storage device) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2116

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
